The college ensures that teachers and students are well aware of the Programme Outcomes (POs) and Course Outcomes (COs) as per the National Education Policy (NEP) framework.

### 1. Clear Communication of Outcomes

At the beginning of each academic session, the Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (COs) are communicated through the college website, prospectus, syllabus copies, and induction programs.

Faculty members explain the learning objectives and expected competencies to students during induction programs and classroom interactions.

### 2. Integration into Teaching & Learning

Teachers align their lesson plans, teaching methods, and assessments with the defined outcomes.

ICT tools help reinforce awareness of these outcomes.

Regular faculty development programs (FDPs) and workshops ensure teachers stay updated with the NEP guidelines.

### 3. Monitoring & Assessment

Periodic feedback from students and faculty helps refine and update the outcomes as needed.

Assessments, assignments, and project work are designed to evaluate the achievement of POs and COs.

The institution ensures that students graduate with the skills, knowledge, and competencies required under the NEP framework.

2.6.2 - Attainment of Programme outcomes and course outcomes are evaluated by the institution.

Lilong Haoreibi College follows a systematic and structured approach to evaluate the attainment of Programme Outcomes (POs) and Course Outcomes (COs) under the National Education Policy (NEP) framework.

### 1. Assessment Methods for Attainment

The institution uses both direct and indirect methods to measure outcome attainment:

**Direct Assessment:** Based on students' performance in internal assessments, assignments, semester exams, practicals, and project work.

**Indirect Assessment:** Collected through student feedback, alumni surveys, employer feedback, and placement records.

### 2. Course Outcome (CO) Evaluation

Each course has clearly defined COs aligned with POs.

Student performance in tests, assignments, quizzes, and presentations is mapped to the respective COs.

The percentage of students achieving set benchmarks determines CO attainment.

### 3. Programme Outcome (PO) Evaluation

PO attainment is measured through cumulative student performance across multiple courses.

Metrics include internship performance, project work, higher education admissions, and job placements.

#### 4. Continuous Improvement

Attainment reports are analyzed by the Academic Committee for curriculum enhancement.

Faculty modify teaching strategies based on assessment insights.

Regular workshops, seminars, and collaborations are conducted to strengthen PO and CO achievement.

This structured evaluation process ensures quality education, skill development, and alignment with NEP goals.

### 3.3 - Extension Activities

3.3.1 - Extension activities are carried out in the neighborhood community, sensitizing students to social issues, for their holistic development, and impact thereof during the year

During the academic year 2023-24, no extension activities of Lilong Haoreibi College were carried out in the neighborhood community to sensitize students to social issues and support their holistic development. This was due to the prevailing conflict situation in the state of Manipur, which posed significant challenges to mobility, safety, and the overall feasibility of outreach programs.

Given the uncertain and sensitive circumstances, the institution prioritized the well-being of students, faculty, and community members, leading to the temporary suspension of such activities. Despite this limitation, efforts were made to engage students in alternative modes of awareness and learning within the campus, ensuring their continued academic and personal growth.

## 6.2 - Strategy Development and Deployment

### 6.2.1 - The institutional Strategic/ perspective plan is effectively deployed

1. Development of IT Block is one activity that is worth mentioning in case of Lilong Haoreibi College that was successfully implemented based on its Perspective Plan.

2. The incumbent Principal of the college, acknowledging the need for having a designated ICT Block in the college, included this activity while preparing the institutional Perspective Plan. In fact, any higher educational institution nowadays without an ICT Block does not make much sense especially in this era where elearning/online learning has become a part and parcel of our present education system.

3. With the NEP 2020 given its importance to blended learning approach, the need for having a robust ICT block is more pressing. That is why the institution considers development of ICT Block as important.

4. The ICT Block of the college has six rooms which were constructed under RUSA wherein high tech interactive digital boards are installed. At present, there are altogether 6 high-tech interactive digital boards in which 5 are installed in the ICT Block and 1 interactive digital board in the IQAC office.

5. Further, the administrative block, IQAC and college library is WiFi enabled. This would strengthen the scope of ICT-based

teaching learning in the institution.

## 6.5 - Internal Quality Assurance System

6.5.1 - Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes

The Internal Quality Assurance Cell (IQAC) LHC has adopted the following two practices for institutionalizing the quality assurance strategies and processes of the College:

(1) Feedback system: Considering the various advantages that feedback collection and analysis could serve in reforming/streamlining the functioning of any organisation, the LHC has also adopted the Feedback system from the academic year 2019-20 in pen and paper mode which has been switched to online mode from the academic session. Feedbacks are collected from Students, Teachers and Alumni only, mostly on syllabus, curriculum delivery and college infrastructure.

(2) Mentor-mentee system: Lilong Haoreibi College has adopted the mentor-mentee system from Dec 2020 onwards with the objective of providing guidance, motivation, emotional support and role modeling by the mentor to the mentee students of the college. Under this system, teachers are assigned the role of mentors and the students as mentees. Each mentor is assigned the task of mentoring a group of mentee consisting of about 30-40 students. Mentors keep a close observation on their mentees not only in their classroom performance such as their attendance and progress, but also attempt to understand their important issues in social life wherever is possible and provide/suggest them feasible

solutions.

6.5.2 - The institution reviews its teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals through IQAC set up as per norms and recorded the incremental improvement in various activities

1. In order to improve quality in education, teaching-learning processes at Lilong Haoreibi College is also monitored at periodic interval.

2. For this purpose, feedbacks are first collected and suggestions sought from the stakeholders - Teachers, Parents, Students and Alumni - on important areas of teaching-learning and infrastructure. Feedbacks thus collected are compiled for each stakeholder separately and analysed them properly. Then, the important suggestions made by the stakeholders are discussed with the Principal, IQAC and other relevant committee. Thereafter, necessary and feasible actions are taken up addressing the grievances/suggestions put up.

3. In case of Lilong Haoreibi College, (1) Feedback system, and (2) Tutorial class can be described as examples of institutional reviews and implementation of teaching-learning reforms facilitated by the IQAC after due consultation with Principal. Feedbacks serve as an important pointer to identify areas where the institution needs to reform and improve its teaching-learning activities and environment.

4. Apart from these, based on the observations of different subject teachers on the performances of the students in the classroom, students are broadly identified as slow learner and advanced learners, and tutorial classes are conducted by the teachers to serve the needs of both the types of students.

2. The most distinctive feature lies in the fact that the Minority Affairs is also paying special attention for the development of the college.

3. The college not only captures local students, but also other minority concentrated villages of the State.

4. Muslim girls from these villages prefer this college as they think it a safer place for their higher learning.

5. The average rate of girls' enrolment increases in a very slow rate over the last a couple of years whereas, that of boys' decreases almost at the same pace.

6. The College has a dedicated team of teachers association, students union and alumni who are in constant dialogues with the spiritual leaders in bridging the gap by organising inter disciplinary academic seminars and workshops where the modalities of joining girls in the higher education sector are minutely discussed and adopted. It is because of this coordination the number of girls in the college has been increasing over the last five years.
